EDUCATION

Master Degree | Yarmouk University, Irbid Sep 2017 - Jun 2020

Thesis entitled "Condition Assessment of Hubras Archaeological Mosque for Conservation Purposes
The thesis aimed to evaluate the current condition of the Hubras Archaeological Mosque in Jordan, identify the causes of deterioration, and propose appropriate conservation strategies. The research involved a comprehensive study of the mosque's history, architectural features, and materials. The condition assessment was conducted through visual inspection, non-destructive testing, and laboratory analysis of samples.

B.A | Yarmouk University, Irbid Aug 2009 - Jan 2014

An interior design program is a course of study offered at a college that provides students with knowledge and skills related to designing functional and aesthetically pleasing interior spaces. The program typically covers various topics, such as interior design history, design theory, space planning, materials and finishes, lighting, color theory, and computer-aided design (CAD) software.

As an archaeologist and conservator with a passion for cultural heritage, I possess a unique set of skills that enables me to contribute significantly to the preservation and protection of historical artifacts and cultural sites.

WORK EXPERIENCE

Junior | UNESCO, PELLA Mar 2023 - JUL 2023

under (Support to livelihoods through a cultural heritage development) project, I had the opportunity to do conservation and rehabilitation tasks at TABQET FAHEL "PELLA" Archaeological Site with the local society under Institute Turath supervision. The project also held training in cultural heritage conservation and photogrammetry by foreign specialists.

WORK EXPERIENCE

Junior | UNESCO, Al Mafraq Dec 2022 - Feb 2023

under (Support to livelihoods through a cultural heritage development) project, I had the opportunity to do conservation and rehabilitation tasks at Umm As-surab Archaeological Site with the local society under Institute francais du Prouch- Orient (IFPO) supervision. the project also held training in cultural heritage conservation and photogrammetry by foreign specialists.

Field Archaeologist | Department of Antiquity, Irbid- Dar Alsaraya Museum Sep 2022 - Dec 2022

During my work in documenting Archaeologist coins for three months, I assisted in the process of documenting and analyzing ancient coins. This involved tasks such as identifying and classifying the coins, photographing them, recording details such as their material and dimensions, and creating digital records. I also worked on cleaning and preserving the coins to prevent further deterioration.

Through this experience, I developed attention to detail, research skills, and the ability to work collaboratively with a team

Field Archaeologist | Department of Antiquity, Irbid- Dar Alsaraya Museum Sep 2020 - Jan 2021

As a documenter of archaeological artifacts for three months, my primary responsibility was to assist archaeologists and museum curators in the documentation process of artifacts. This included inventorying and cataloging artifacts, taking high-quality photographs, creating digital records, writing descriptions, and cleaning and preserving artifacts.

Conservator | Department of Antiquity, irbid Nov 2020 - Feb 2021

"Worked as part of a team to restore a historic mosaic floor. Responsibilities included identifying damaged areas, preparing and applying restoration materials, and ensuring the final product met high-quality standards."

scholarship | Yarmouk university, west attica university- Athena Mar 2019 - Jul 2019

During the six months of training, I as a scholarship recipient learned how to assess the condition of mosaic floors, identify the types of damage that can occur, and develop appropriate conservation treatments to address the issues. I also learned how to document and analyze mosaics using advanced imaging techniques and develop a deep understanding of the cultural and historical significance of the mosaics.
